ABSTRACT

Here you should describe the paper idea in short. The abstract should have **from 100 up to 150 words**. Font Calibri, size 9

KEYWORDS

from 5 to 7 characteristic words (and/or groups of words, separated with commas). select keywords that can be used to identify the subject of your paper. Font Calibri italic, size 9

1 INTRODUCTION (CAPTION: FONT CALIBRI BOLD CAPITAL LETTERS, DARK BLUE, SIZE 9)

These instructions are intended to guide prospective authors of the **MM Science Journal** when preparing their **paper manuscript** for the intended **paper**. The following requirements should be adhered to as closely as possible. Use this document please as an example and template.

No final corrections will be made by the publisher. The paper must be sent in MS Word *docx* or *doc* format.

The official language of the journal is English. Papers written in other languages will not be accepted.

The final paper must not exceed ten (10) pages in length including the graphic objects. Every paper will be numbered separately. Please leave the numbers in the footer and do not modify it. Text: Font Calibri, size 9 – use this font for all the text.

2 CHAPTER

Preferably use DIN A4 page format and MS Word editor, please. Some more suggestions to style of your paper:

- do not use underlining in your paper
- use a consistent spelling style throughout the paper (US or UK)
- use single quotes
- use %, not percent
- do not use ampersands (&) except as part of the official name of an organization or company
- keep hyphenation to a minimum. Do not hyphenate 'coordinate' or 'non' words, such as 'nonlinear'
- do not end headings with full stops.
- use one character space after all punctuation

2.1 Subchapter (CAPTION: FONT CALIBRI BOLD ITALIC, AUTOMATIC FONT COLOUR, SIZE 9)

Number the subchapter consecutively, i.e. the subsections of section 2 are numbered 2.1, 2.2, 2.3 etc. We recommend using no more than three levels of headings.

FIGURES AND TABLES

Make sure that all graphical content is sharp and printable in sufficient quality (at least 300 dpi, CMYK). It is possible to use both grayscale or color graphics.

Take care that figures copied from other sources do not contain Asian fonts!

Figures and Tables must be inserted in the text (not as attachment), cited in the text, and should be consecutively numbered i.e. Figure 1, 2, 3, etc., and Table 1, 2, 3, etc. with the captions as follows:

Figure 1: MM Science Journal logo (font of the caption- Calibri, dark blue, size 8)

Table 1: Table caption

[TABLE PLACE HERE]

All tables must be created using Table utility provided by Microsoft Word. Information within the table will be written using TNR 10 pt, regular, single spacing. A table wider than a single column should not be reduced to fit; use two columns instead, preferably at the bottom of the page. For tables larger than a column, a single page may be used (eventually Landscape).

Refer to tables as Table x (number) in the text. Table will be simply framed (bordered) using line of 1.5 pt.

Before the table insert the word Table, the number of the table with Arabic number, the title of the table, all written TNR 10 pt, regular, and right aligned. When refer to figure or table use shortcut e.g. see Fig. 1, 2, 3 or Tab. 1, 2, 3 etc.

Do not wrap the text around the Figures, place the caption below the Figure, or above the Table.

Photographs must be clear, of perfect technical quality. Figures and Tables will be published in colour.

Do not use linking between mentioning in the text and the Figure or Table itself!

Place the figure or table on the text page as close to the relevant citation as possible. If a figure or table is too large to fit into one column, it can be centered across both columns at the top or the bottom of the page. Make sure that it does not extend into the page margins.

EQUATIONS

Equations should be numbered in the right margin.

$$x^2y^2 + Ax_2 - 2Bxy = 0 \quad (1)$$

When explaining/mentioning the equations/symbols in the text, please use the symbols (e.g. α , β , numbers etc.) as a font (**don't insert as a picture!**).

3 CHAPTER

Authors must adhere to SI units. When using a word which is or is asserted to be a proprietary term or trade mark, authors must use the symbol ® or TM.

Please send your paper manuscript by e-mail to: dvorakova.j@fme.vutbr.cz

The **file name** of your **paper manuscript** should be:

[Yourname_MM-SJ ML_PaperManuscript_yyyy-mm-dd.doc](#)

4 CONCLUSIONS

Authors of accepted papers will be required to transfer copyrights to the publisher. You can download the **Transfer of Copyrights Form** including the related information from the official Conference web portal:

ACKNOWLEDGMENTS

Acknowledgements (if any) should be placed after the Conclusions and before the References.

REFERENCES

Relevant works previously published must be cited in the reference list. List the references at the end of the paper, in **order of author's name**.

References are to be marked in the text by giving the name of the first author and the publishing year in square brackets, e.g. [Anderson 2003]. Only those publications actually cited in the paper can be included in the list of references. Please follow the format for references as follows (**if more than two authors, give the surname of the first author followed by et al.**):

CONTACTS

Author's full Name **including academic title(s)**
Institution/University, Department
Address, City, Postal Code, Country
Telephone, e-mail, websites

References are unnumbered, and **listed in alphabetical order**. In case, the original language of used literature is not English, please translate the title and put the information about the original language in curves at the end e.g. (in Czech, in Slovak, in German, etc.). **Do not use diacritics in the czech names**.
